Explore the next generation
of AI Learning Solutions

COMPANY PROFILE

Explore the next generation
of AI Learning Solutions

In today's business world, organizations prioritize customer-centricity and employee development. L&D teams focus on upskilling and continuous learning to empower employees. We provide customized, learner-centric solutions that align with your mission while leveraging the latest technology and generative AI for personalized, robust learning experiences.
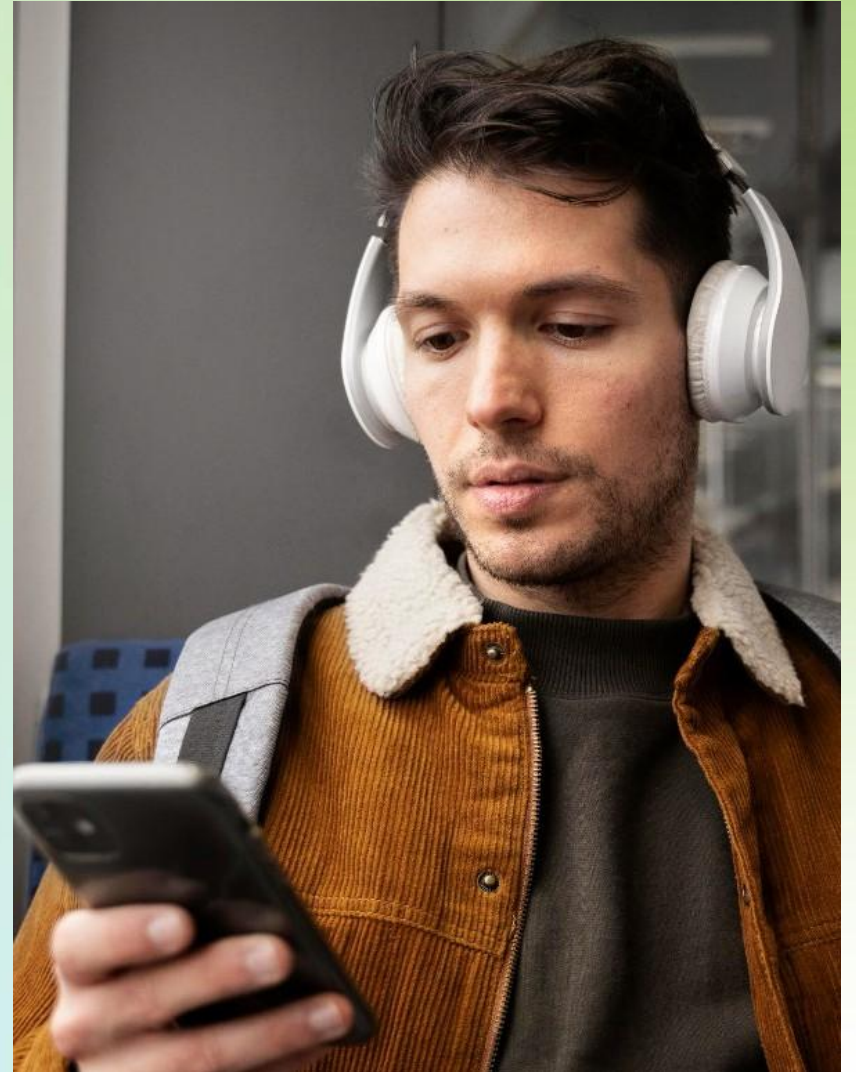

Crafting Stories, Shaping Learning
Our Instructional Design Approach

At the core of our instructional design is a powerful principle: storytelling.
We don't just create content—we craft narratives that deeply engage learners, transforming complex information into compelling learning journeys.

Our approach focuses on:

▶ Creating emotional connections, making abstract concepts more tangible.

▶ Providing real-world context to bridge the gap between theory and practice.

▶ Boosting retention by leveraging the brain's natural affinity for stories.

▶ Aligning with your specific business objectives.

▶ Addressing real-world challenges faced by your employees.

▶ Delivering measurable outcomes that demonstrate ROI.

While learner engagement is key, our training solutions are designed to drive your business goals. Every story, module, and interaction is thoughtfully crafted, and we leverage the latest AI technologies to stay aligned with current learning standards.

Creating Experiences through Human-Centric Design
Our Visual Design Approach

Our visual design philosophy is rooted in being human-centric. We create designs that are highly functional, flexible, and scalable. Our expertise spans visual, interface, and graphic design.

Our team comprises highly skilled professionals, proficient in over 30 authoring and graphic design tools. Leveraging the latest AI technologies, we produce visually captivating images, animations, motion graphics, videos, digital books, and more.

# Unlock Your Potential with Hands-On Learning

Instructor-Led Training

Pentonix is your trusted partner for impactful Instructor-Led Training. Our visually engaging, psychology-driven courses captivate corporate audiences, boost retention, and cater to diverse learning styles. Using real-world scenarios and evidence-based techniques, we create meaningful learning experiences that deliver measurable results.

Expertise in AI-Driven Learning Technology

Our AI-powered learning technology expertise drives seamless, innovative eLearning solutions. From interactive simulations to personalized learning pathways, we leverage advanced platforms, authoring tools, and LMS to create engaging, impactful training experiences that deliver measurable results.

Training Delivery Expertise

Blended Learning
An effective strategy that combines facilitated and self-paced online training for maximum impact. We help you create the ideal mix of ILT/VILT and self-paced modules.

Mobile Learning
Mobile learning bridges training gaps and enhances job performance, offering flexible, engaging learning anytime, anywhere.

Microlearning
Pentonix's microlearning strategies combat the forgetting curve, boost retention, and optimize learning to meet both organizational and learner goals.

Gamification
AI-powered gamification personalizes learning experiences, adapting challenges and rewards to individual progress. By leveraging AI, we create dynamic, engaging environments that motivate learners and improve outcomes.

Training Delivery Expertise

Instructor-Led Training
Our Instructor-Led Training (ILT) blends expert facilitation with engaging content to foster interactive, dynamic learning, whether in-person or virtual, promoting active participation and real-time feedback.

Immersive learning
Immersive learning leverages cutting-edge technologies such as Augmented Reality (AR), Virtual Reality (VR), and Mixed Reality (MR) to create a learning environment that is not just informative, but also engaging and exciting.

Scenario-Based Learning
Our scenario-based learning engages learners with storytelling and real-world scenarios, simplifying complex concepts and enhancing the learning experience.

Video Based Learning
Traditional materials often fail to engage learners, prompting a shift to "Explainer Videos" that simplify complex information. Our services redefine corporate training through impactful visual storytelling.

Training Strategies Expertise

Compliance Training
Keep your team compliant and informed with engaging, structured training modules. We help meet industry standards, legal requirements, and promote a culture of accountability.

Product Training
Empower your teams for customer success with impactful product training that uses videos, scenarios, simulations, and microlearning techniques.

Diversity, Equity, and Inclusion Training
Foster an inclusive culture with our proven DEI training that shifts mindsets, overcomes bias, and promotes accountability.

Induction and Onboarding Training
Welcome new hires with a structured onboarding that introduces company culture, policies, and roles, ensuring a smooth transition and early productivity.

Training Strategies Expertise

Sales Training

Boost sales performance with flexible, interactive eLearning modules that deliver practical techniques and strategies anytime, anywhere.

Process Training

Captivate your sales and marketing teams with interactive eLearning modules that bring your processes to life. Make learning fun and engaging, while ensuring your teams have the knowledge and skills to achieve their full potential and drive business growth.

Competency Training

Advance careers with personalized, skill-based courses that bridge theory and real-world application, delivering practical insights and hands-on experience.

Sustainability Training

Equip your team to drive sustainable practices with engaging, interactive eLearning that inspires real-world impact.

Advisory and Consulting

At Pentonix, we prioritize excellence in employee development through a thorough Training Needs Analysis (TNA) process. We ensure a tailored, responsive, and impactful learning experience by deeply understanding learning needs. Our services include regular analysis, stakeholder consultations, learning solutions, implementation, evaluation, and detailed reporting.

Our Advisory services Include:

- Training Needs Analysis and Learner Needs Analysis
- Measurement of impact on learners and the business
- ROI and ROE determination

Korean

Avatar Selection Options

Appearance

Human-like
Cartoon
3D animated
Realistic

Users can personalize avatars with various appearances (human, cartoon, 3D, realistic), genders, ethnicities, outfits (business, casual), emotions, and custom branding (logos).
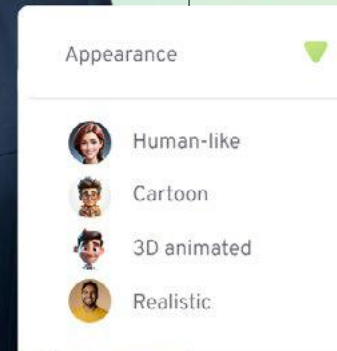

Advantages of AI Avatar Facilitator

Boost Engagement with AI

Enhance engagement and learning with Generative AI-powered virtual assistants that offer real-time interactions.

Tailored Solutions Across Key Industries

Our AI-powered facilitator avatars provide tailored solutions across key industries, addressing challenges in healthcare, banking, hospitality, retail, education, and more, setting new standards of excellence.
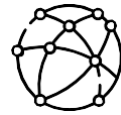

Connects Effortlessly Across All Interfaces

Our platform seamlessly connects across web services, apps, messaging platforms, hardware, and KM tools, ensuring a consistent and immersive AI avatar experience across all interfaces.

Your All-in-One AI Solution

An all-in-one platform that seamlessly integrates AI services like AI Voice, AI Avatars, Conversational AI, and more.
